To create productive, digestible feedback, make sure it's clear, empathetic, and actionable. Give examples of when their work or behavior wasn't ideal, and provide clear, achievable goals for follow-up. Also, point out accomplishments and emphasize why the feedback is important. Keep disseminating your brilliant work. I cannot thank you enough for your time, for the suggested reading and for the very helpful and thought-provoking session. It was very informative and I feel I can use this with my students and staff. Excellent workshop – learned a great deal and inspired to learn more. This workshop was beautifully executed to bring together research & practice. I appreciated the final discussion regarding implementation.

To create productive, digestible feedback, make sure it's clear, empathetic, and actionable. Give examples of when their work or behavior wasn't ideal, and provide clear, achievable goals for follow-up. Also, point out accomplishments and emphasize why the feedback is important. Keep disseminating your brilliant work. I cannot thank you enough for your time, for the suggested reading and for the very helpful and thought-provoking session. It was very informative and I feel I can use this with my students and staff. Excellent workshop – learned a great deal and inspired to learn more. This workshop was beautifully executed to bring together research & practice. I appreciated the final discussion regarding implementation.
